CREATION OF THE BUSTA DOCUMENTARY

2023

QUEST hosts therapy dog Aika, while the team work to finalise the documentary for screening in Sofia.

The Belgian activities regarding the BUSTA project were all revolving around Aika, the therapy dog in training from the organisation Dyadis, of which the experiences are filmed and visible in the project documentary. As the team was working on the editing, gathering information in order to create the credits at the end, and working on the subtitles, each person would take turns walking Aika, or reinforcing her training practices.

SCREENING OF DOCUMENTARY

AUGUST 2023

Between the 1st and 7th August the project BUSTA was presented at the most significant European forum for democratic education - the EUDEC 2023.

The event was organised by the Association Community for Democratic Education and took place in Sofia, Bulgaria, attracting more than 150 visitors from up to 20 countries from Europe and beyond. It is the place where each year educators, teachers, parents, students, and practitioners interested in democratic education gather to exchange and connect.

SCREENING OF DOCUMENTARY

AUGUST 2023

Photos from the BUSTA project's activities were exposed in one of the central locations during the whole period of the Conference.

As part of the EUDEC's program on the 3th of August there was a screening of the documentary, one of the project's outputs - Project Result 1. Though there is still footage to add from the LTT3 that is planned for September 2023, the documentary was well received. Mia Shmallenbach from QUEST, Tsvetelina Kolovkska from CDE as well as students participating in the project were also present during the screening and ready to provide additional information and answer questions.

As a conclusion of these exchanges, school pupils of the partner countries were introduced to the BUSTA project and were brought to reflect upon disability.
